

ESG PRODUCT GUIDE

Australian Edition.
Updated April 2023

ESG GIVE BACK!

The ESG Foundation reflects the mentality of all ESG operations; it is driven by purpose. The movements of the ESG Foundation are spurred on by our want to do anything that we can locally in order to help out communities on a global scale. It is just another way that we are trying to make the world a better place.

The ESG Foundation seeks out projects and individuals that will benefit from being assisted in developing leaders and building their skill sets so that they are able to stimulate sustainable growth within their own communities. We aren't looking to provide a quick fix, we want to help build the structures that will assist both current and future generations.

100% RECYCLED PAPER

ESG SLIM CONTROLLED-USE 3 ROLL TOILET TISSUE DISPENSER

ESG Slim 3-roll controlled-use dispenser is ideal for high-traffic environments

FEATURES AND BENEFITS

Eliminate Empty Dispensers

Ensures the maximum use of each toilet roll and eliminates waste, as well as replenishment downtime.

Premium Dispenser with a Reduced Dispenser Footprint

High gloss cover delivers a premium finish to your facilities washroom. ESG Slim is the smallest, high-capacity 3-roll toilet tissue dispenser available.

Eliminate Pilferage and Vandalism

Redesigned and reinforced lockable cabinet with three keys attached to the translucent back panel. Each roll is housed in its own security cradle, ensuring reserve rolls are not accessible by the public.

Reduce Blockages

our premium 100% recycled paper is designed to breakdown quickly, reducing blockages.

Reduce Cleaning Required

ESG Slim toilet rolls reduce mess from paper tabbing, eliminate paper shredding, and spent cores are left in the dispenser leaving the washroom floor clean.

Reduce your Environmental Impact

The ESG Slim space saving core means smaller carton size and reduced storage requirements. Compared to previous 3 roll dispensers, ESG Slim dispenser uses 47% less plastic.

Dimensions (cm): 30.2(l) x 11.8(d) x 29.5(h)

SD403

SD404

ESG Slim Controlled-Use Toilet Tissue

100% recycled toilet tissue, with our slim core technology assists in reducing consumption, maintenance and overall costs. All toilet rolls are individually wrapped in a branded 100% recycled enviro-wrap, for ease of identification and enhanced levels of hygiene.

Code	Product Description	Qty Per Pack
136-SLIM	ESG Slim 1-Ply 100% Recycled Toilet Tissue	36 Rolls
236-SLIM	ESG Slim 2-Ply 100% Recycled Toilet Tissue	36 Rolls

ESG SIMPLICITY CONTROLLED-USE MECHANICAL ROLL TOWEL DISPENSER

- ✓ High Capacity, easy to load dispenser, holds up to 243m roll towel
- ✓ No batteries to change, easy to operate and easy to maintain
- ✓ Fast paper delivery, no need to wait for a sensor
- ✓ The translucent front panel, allows for easy identification, eliminating the need to open each dispenser to see if they need replenishment

ESG Cornerstone Controlled-Use Roll Towel

High capacity roll towels are unique to the ESG dispensing systems.

The impressive length of both roll towels complements the innovative transfer roll feature, a design that reduces maintenance needs while being able to cope with the demand of high traffic.

Code	Product Description	Qty Per Pack
316-CS	ESG Cornerstone Roll Towel (White) 192 metre roll	6 Rolls
380 -CS	ESG Cornerstone High Capacity Roll Towel (White). 243 metre roll	6 Rolls

ESG CONTROLLED-USE 3 ROLL TOILET TISSUE DISPENSER

FEATURES AND BENEFITS

Controlled-Use Savings

Ensures the maximum use of each toilet tissue roll before advancing to the next roll. Provide the end user with the volume of paper that they need, rather than the volume that they want.

Enhanced Perception and Image To Facilities

Unique split core system, leaves the spent core in the dispenser. Reducing mess in washrooms.

Translucent Black or White Exterior

Reducing maintenance time as it is clearly visible when the dispenser requires refilling.

Locking Dispenser Cover

Eliminating pilferage in your washroom with a lockable cabinet and metal “S” key that is compatible with all our controlled-use dispensers.

Thoughtful Consumption

Our 100% recycled paper is designed to breakdown quickly (within 10-12 seconds of being agitated in water) reducing blockages.

ESG Controlled-Use 3 Roll Toilet Tissue Dispenser

The 3-roll controlled-use dispenser is ideal for high-traffic environments.

- Products minimise maintenance time and maximise cost savings.
- High Capacity 3-Roll Dispenser - Maximum capacity when fully loaded 5,265 sheets (1-ply), reducing the labour & maintenance time.
- When one roll of tissue is finished, simply turn the dial to advance to the next roll.

80396

Dimensions (cm): 35(l) x 16(w) x 37(h)

ESG Cornerstone Controlled-Use Toilet Tissue

Assists in reducing consumption, maintenance and overall costs by ensuring the maximum use of each high capacity toilet tissue roll before advancing to the next roll.

Code	Product Description	Qty Per Pack
129-CS	ESG Cornerstone Toilet Tissue 1ply 1755 sheets per roll	36 Rolls
619-CS	ESG Cornerstone Toilet Tissue 2ply 865 sheets per roll	36 Rolls

ESG CONTROLLED-USE SIDE BY SIDE 2 ROLL TOILET TISSUE DISPENSER

FEATURES AND BENEFITS

Controlled-Use Savings

The ESG 2 Roll Dispenser ensures the maximum use of each toilet tissue roll before advancing to the next roll. Provide the end user with the volume of paper that they need, rather than the volume that they want.

Enhanced Perception And Image To Facilities

Unique split core system, leaves the spent core in the dispenser. Reducing mess in washrooms.

Translucent Black or White Exterior

Reducing maintenance time as it is clearly visible when the dispenser requires refilling.

Locking Dispenser Cover

Eliminating pilferage in your washroom with a lockable cabinet and metal “S” key that is compatible with all our controlled-use dispensers.

Thoughtful Consumption

Our 100% recycled paper is designed to breakdown quickly (within 10-12 seconds of being agitated in water) reducing blockages.

ESG Controlled-Use Side By Side 2 Roll Toilet Tissue Dispenser

The 2-roll side by side tissue dispensers are the optimum solution to reducing maintenance time and costs in confined spaces.

- Accommodating tissue products are designed for controlled-use dispensing.
- Small 2-Roll Dispenser Footprint – Ideal for space saving environments, or ambulant facilities.
- Space saving dispenser with high-capacity.

80296

Dimensions (cm): 25(l) x 17(w) x 21(h)

ESG Cornerstone Controlled-Use Toilet Tissue

ESG Bath Tissue assists in reducing consumption, maintenance and overall costs by ensuring the maximum use of each high capacity toilet tissue roll before advancing to the next roll.

Code	Product Description	Qty Per Pack
129-CS	ESG Cornerstone Toilet Tissue 1ply 1755 sheets per roll	36 Rolls
619-CS	ESG Cornerstone Toilet Tissue 2ply 865 sheets per roll	36 Rolls

Unique stub roll transfer feature

At a glance you will know when the roll is nearing completion. A new roll is placed in the dispenser, whilst the existing roll is in place. This ensures 100% consumption, no waste and removes the risk of run out.

86896

Dimensions (cm): 28(l) x 28(w) x 37.5(h)

ESG CONTROLLED-USE TOWEL DISPENSER

ESG Controlled-Use Dispenser

- The ESG Hands Free Dispensing System delivers a pre-measured towel to control usage and promote cost savings.
- No need to touch the dispenser, which reduces contact with harmful bacteria and maintains hygiene.
- Reversible door and emergency feed bar.
- Offers an enhanced perception and image to your facilities.
- Accommodates up to 300 metres of toweling along with the stub roll.

ESG Cornerstone Controlled-Use Roll Towel

High capacity roll towels are unique to the ESG dispensing systems.

The impressive length of both roll towels complements the innovative transfer roll feature, a design that reduces maintenance needs while being able to cope with the demand of high traffic.

Code	Product Description	Qty Per Pack
316-CS	ESG Cornerstone Roll Towel (White) 192 metre roll	6 Rolls
380 -CS	ESG Cornerstone High Capacity Roll Towel (White). 243 metre roll	6 Rolls
343 -CS	ESG Cornerstone High Capacity Roll Towel (Blue) 243 metre roll	6 Rolls

PURELL® Professional Advanced Hand Sanitiser Fragrance Free Gel & Foam

Fragrance-free gel and foam hand sanitiser for professional environments.

- Green certified, fragrance-free gel or foam hand sanitiser for professional environments
- Kills more than 99.99% of most common germs that may cause illness
- Dye and fragrance free
- Made with naturally renewable ethanol

Code	Product Description
5052-02	PURELL® Professional Advanced Hand Sanitiser Fragrance Free Foam
5060-02	PURELL® Professional Advanced Hand Sanitiser Fragrance Free Gel

PURELL® ADX™

700mL Push-Style Hand Sanitiser Dispenser

8720-06

PURELL® ADX-7™

Dispenser White/White

Dimensions (cm): 9(l) x 9(w) x 24.5(h)

FEATURES & BENEFITS

- ✓ **Compact Design** – The small dispenser footprint makes it suitable for the smallest spaces.
- ✓ **Easy Maintenance** – Large sight window, skylight & clear bottles make it easy to know when to change the refill.
- ✓ **GOJO Sanitary Sealed Refills** – Snap into place quickly & easily.
- ✓ **GOJO Controlled Collapse Bottles** – Patent-pending refills are engineered to hold their shape while emptying, for a more attractive appearance.
- ✓ **Environmentally Friendly** – Refills are made from recyclable PET. Material provides crystal clear clarity while using 30% less material.

PURELL® Antiseptic Hand Foam

8704-04-AUS00

PURELL® Antiseptic

Hand Foam

AUST R 209523

- 1.1mL efficacious dose
- Contains 72% v/v absolute ethanol
- Kills more than 99.999% of most common germs that may cause illness
- Thick, luxurious foam
- Contains skin conditioners
- Made with 100% naturally renewable ethanol
- Biodegradable formula
- Actuation per shot 1.3mL, 538 shots per refill

Markets: Education, Healthcare, Hospitality, Government, Industrial & Commercial

PURELL® TFX™

1200mL Touch-Free Hand Sanitiser Dispenser

2720-12

PURELL® TFX™

Dispenser White/White

Dimensions (cm): 15.5(l) x 9.5(w) x 26(h)

FEATURES & BENEFITS

- ✓ **Easy Maintenance** – Large sight window, skylight & clear bottles make it easy to know when to change the refill.
- ✓ **GOJO Sanitary Sealed Refills** – Snap into place quickly & easily, minimising labour time while protecting users from the contamination risks of bulk soap.
- ✓ **Locking Dispenser** - Converts to a locking dispenser
- ✓ **High Capacity Dispenser**
- ✓ **Trouble-free performance**

PURELL® Antiseptic Hand Gel

5491-04-AUS00

PURELL® Antiseptic

Hand Gel

AUST R 212955

- Dual Formula, can be used as a hand sanitiser as well as a waterless surgical scrub in healthcare settings
- 1.1mL efficacious use as Alcohol Based Hand Rub or 3mL for 120 seconds as Waterless Surgical Scrub
- 3-hour broad spectrum residual efficacy
- Kills more than 99.999% of most common germs that may cause illness
- Fast-drying formula with skin conditioners
- Made with 100% naturally renewable ethanol
- Actuation per shot 1.2mL, 1000 shots per refill

PURELL® Antiseptic Hand Foam

5391-02-AUS00

PURELL® Antiseptic

Hand Foam

AUST R 209523

- 1.1mL efficacious dose
- Contains 72% v/v absolute ethanol

- Actuation per shot 1.0mL, 1200 shots per refill

Markets: Education, Healthcare, Hospitality, Government, Industrial & Commercial

PURELL® ANTISEPTIC HAND RUB

1250mL Push-Style Hand Sanitiser Dispenser

PURELL® ANTISEPTIC HAND RUBS HELP IMPROVE COMPLIANCE AS PART OF A TOTAL SOLUTION.

- ✓ 1ml meets FDA/TGA requirements as a hand sanitizer (tested at 3ml)
- ✓ The log rate from application 1 to application 10 increases
- ✓ Effective against C' Diff; Norovirus; MRSA; MERS; VRE; Influenza-A plus many more
- ✓ Provides a 3 hour residual effect (without the harshness of CHG)
- ✓ Breakthrough entire hospital formulations with exceptional antimicrobial efficacy¹
- ✓ PURELL Antiseptic Hand Rubs outperform other leading brands
- ✓ Feels great to use and clinically proven to maintain skin health²
- ✓ 8 out of 10 nurses prefer PURELL Antiseptic Hand Rubs over leading competitors commonly used in Australian hospitals³
- ✓ mL for mL PURELL Antiseptic Hand Rubs are more effective than higher alcohol formulations⁴
- ✓ Superior defence against germs in a skin-friendly formula

Whole Hospital Formulation
PURELL Antiseptic Hand Rubs
 Meet or Exceed all Applicable, Globally Recognized European Norms (EN Standards) for Hand Hygiene²

Hand Sanitiser EN 1500	Virucide FN 14476	Surgical Hand Disinfection FN 12791
Bactericide EN 1040 EN 1276 EN 13127 EN 14348	Yeasticide and Fungicide EN 1275 EN 13624 FN 1650	

Australia recognises the European Norm (EN) test methodology for hand hygiene standards as well as that of the American Society for Testing and Materials (ASTM).

PURELL Antiseptic hand Rubs meet the FN standards for a hygienic hand rub, broad spectrum activity, and ASTM standards for a healthcare hand rub. In fact, PURELL meets the ASTM E1774 healthcare Personnel Hand Wash standards with efficacy at just 1.1 ml for a 2-log reduction at application 1, and a 3-log reductions at application 10.

PURELL Foodservice Surface Sanitiser

- ✓ **Rapid Kill Time** – Kills 27 germs in 30 seconds, including Listeria, Salmonella, and E. Coli
- ✓ **Ready to use** – No dilution/mixing required
- ✓ **Formulated for food contact surfaces**
NSF certified D2 classification
- ✓ **Multi-surface performance** – Plastic, Granite, Sealed wood, Porcelain, Laminate, Upholstery, Vinyl, Stainless Steel, Glass, Fabrics, Quartz surfaces
- ✓ **Fragrance Free Formulation** – No harsh chemical fumes. No hand washing required after use. No personal protective equipment needed
- ✓ **EPA Design for Environmental (Dfe) Certified** – Delivers the fastest surface disinfection time of any Dfe product

PURELL Professional Sanitising Surface Disinfectant

- ✓ **Rapid Kill Time** – Kills 27 germs in 30 seconds, including Gastro, Salmonella, and E. Coli
- ✓ **Ready to use** – No dilution/mixing required
- ✓ **Multi-surface performance** – Plastic, Granite, Sealed wood, Porcelain, Laminate, Upholstery, Vinyl, Stainless Steel, Glass, Fabrics, Quartz surfaces
- ✓ **Fragranced** – Has fresh citrus scent
- ✓ **EPA Design for Environmental (Dfe) Certified** – Delivers the fastest surface disinfection time of any Dfe product

THE STANDARD IN ODOUR NEUTRALISATION
FOR THE AWAY-FROM-HOME MARKET

WHAT IS AN ODOUR CONTROL PROGRAM?

An odour control program is a planned cleaning procedure that utilises an odour counteractant with non-conflicting fragrance to neutralise odours in a given area, thereby creating a more pleasant environment.

The most effective odour control programs are comprised of assorted products which all work toward one goal...total malodour neutralisation.

It is very important that this program have a congruency with regard to fragrance. There is nothing worse than smelling two, three and sometimes up to four different fragrances in one facility or room. Many times this potpourri of assorted fragrances is worse than the original malodour they are intended to relieve.

The most effective form of odour control is through a process called neutralisation. This process usually combines fragrance materials with chemical compounds to provide immediate and long-term odour control. The fragrance materials usually mask the malodour for short term relief and allow the chemical compounds time to change the molecular structure of the malodour, and thus eliminate the odour permanently.

HOW DO PEOPLE DETECT AND RECOGNISE ODOURS?

Human beings detect and recognise odours by a complex set of physiological and biochemical processes. Detection begins when odour molecules (like benzaldehyde from Maraschino cherries) enter the nose and attach to areas in the nose called "odour receptors". By precisely fitting into the odour receptors, the odour molecules cause an electrical signal to reach the brain. The brain translates the electrical signal and allows us to recognise the particular odour. If the electrical signal is strong (i.e. many odour molecules attached to many receptors), we sense a weak odour. We attach meaning to the odour (good or bad) simply based on experience.

NILODOR PRODUCTS ARE ODOUR NEUTRALISERS

In order to neutralise an odour, a product must do at least one of two things: remove a malodorous molecule from the air so that it never reaches nasal receptors or change the shape (molecular geometry) of a malodorous molecule so that it won't fit properly into its nasal receptors. If the malodorous molecule is either removed totally or unable to fit in its receptors, no odour will be detected. Nilodor products contain a unique chemical formulation which not only removes malodours from the air but also chemically modifies many malodours so that they can't fit into their nasal receptors. Thus, Nilodor products are true odour neutralisers. As an added bonus, the products also leave a mild, pleasant fragrance which accents any environment.

ODOUR NEUTRALISATION EXPLAINED

A complete program for most facilities would consist of the following products:

WATER SOLUBLE DEODORISER

This is the most common product due to its versatility. The most effective water soluble deodorisers are very concentrated in nature and can be used in almost any type of cleaning procedure (carpet care, hard floor care, fogging, spraying etc.) They can range in levels of fragrance, but it is very necessary they provide long-term neutralisation.

BIO-ENZYMATIC BACTERIA/ENZYMES

This product is generally designed to digest organic material that causes malodour molecules to be released in to the air. This type of product also has many applications in any institutional odour control program. It can be used to digest organic odours and strains in carpeting. It is a cleaner's best ammunition against grease and drain odours from drain lines, septic gas odours from septic systems, etc. Generally, there are three factors to analyse when choosing a Bio-Enzymatic bacteria/enzyme product. First, the most strains of bacteria, the more versatile the product will be at digesting a wide variety of organic material. Second, the higher the bacteria spore count, the quicker it should digest and liquefy waste. Third, it should contain an odour neutraliser to immediately neutralise the malodour, giving the natural process of biodegradation time to occur.

DISPENSERS AND OTHER ROOM FIXTURES

These can range greatly in cost, application, and effectiveness. Machines and fixtures are generally designed to provide continuous odour control for extended periods of time. These are very popular because they usually offer a pleasant fragrance to anyone using the facility. Keep in mind however, the system approach that should be taken. Make the fragrance and neutraliser consistent throughout.

POWDERS AND ABSORBENTS

These are very important in rounding out a good institutional odour control program. There are granular products designed to help clean up liquid spills while eliminating the sometime obnoxious odours involved. Carpet powders, depending on the compound, usually provide a safe and economical method of neutralising odours in carpet areas. Other industrial granular products are designed to eliminate the obnoxious odours found in garbage areas.

Overall, odour control is one of the most important, sometimes overlooked, components in every institutional cleaning program. Due diligence should be taken when choosing the program appropriate for the facility. We must remember, people judge our cleaning with their noses each and every time they visit.

Our professionals can assist in implementing the appropriate program for you.

4 STEPS TO A FRESHER WASHROOM WITH NILODOR

1

SURFACE ODOUR CONTROL

- Add Nilium Water Soluble Odour Neutraliser to your regular mopping solution.
- Add 30ml to 1L mopping solution.
- Add 20ml to a 1L spray bottle.

2

SOURCE REMOVAL

- Mop or Spray Nilodor Bio-Enzymatic Urine Digester over any areas that may be affected by uric acid and leave it to air-dry.
- In due course, the source of any organic odours will be eliminated.

3

FIXTURE CARE

- Nilodor Urinal Screens help clean and reduce urine odours.
- Toilet bowl clips are designed for easy installation.
- Trough Screens are perfectly designed for wide based trough urinals

4

AIR CARE

- Ultra Air Room Fresheners, offer an alternative to the traditional aerosol refills and dispensers.
- A passive environmentally preferable option not requiring batteries.

Nilium Water Soluble Concentrate

Applications	Problems	Dilution	Recommendations
Automobiles	Pet or smoke odours	10-20mL : 1Litre	Spray dilution to eliminate smoke odours, pet odours etc.
Carpet	Smoke/mildew, pet odours	5mL : 1Litre	Add 5mL concentrate to 1Litre extraction or shampoo solution. Inject undiluted directly onto matting for hidden odours.
Clean-up	Inherent cleaner or disinfectant odours	10mL : 1Litre	Use in conjunction with cleaner/disinfectant to neutralise inherent chemical odour.
Floor Care	Room odours	10mL : 1Litre	Add to mop water. Great for odours absorbed into porous surfaces i.e. Concrete, grout, wood etc.
Fire	Smoke odours	10-20mL : 1Litre	Dilute and spray on any water safe surface where smoke odour may linger.
Garbage	Dumpster and compactor odours	50mL : 1Litre	Pour or spray dilution down garbage chute or into dumpster or compactor
Laundry	Smoke odours	50mL : per load	Add to the wash cycle at any time.
Kitchen	Garbage odours	10mL : 1Litre	Add to mop water or cleaner. Pour in garbage disposals to eliminate and help cleanse.
Paint	Residual odours	10-20mL : 1Litre	Add to latex paint to eliminate odours during application.
Pet	Kennels	10-20mL : 1Litre	Spray dilution in kennels. Use in conjunction with bleach to eliminate inherent odours.
Public Transport	General clean up/residual odours	10mL : 1Litre	Add to cleaner for clean-up and maintenance.
Restroom	All odours	10mL : 1Litre	Use in conjunction with disinfectants, cleaners or as a spray dilution. Great for mop water and drains.
Room Odours	Room deodorisation	10-20mL : 1Litre	Spray for room deodorisation.
Sewer	Water treatment	10-20mL : 1Litre	Spray dilution over problem areas during peak periods of water treatment.
Sickrooms	All odours	10mL : 1Litre	Use in conjunction with cleaner/disinfectant to neutralise odour on contact.

Product Code	Fragrance	Size
32-WST	Red Clover Tea Fragrance	.946L
128-WST	Red Clover Tea Fragrance	3.78L
32-WSCM	Cucumber Melon Fragrance	.946L
128-WSCM	Cucumber Melon Fragrance	3.78L
32-WSSL	Soft Linen Fragrance	.946L
128-WSSL	Soft Linen Fragrance	3.78L
32-WSTM	Tango Mango Fragrance	.946L
128-WSTM	Tango Mango Fragrance	3.78L

Nilium is the most effective water soluble odour neutraliser available. The highly concentrated formula makes it very economical and can be used alone or in conjunction with disinfectant or detergent. Nilium is available in a number of fragrances; Red Clover Tea, Cucumber Melon, Soft Linen and Tango Mango and in two different size bottles .946mL and 3.78L. Nilium is recommended for multiple applications, some of these include; Mop Buckets, Hospitals, Nursing homes, Offices, Restaurants, Industrial sites, Clubs/Pubs, Schools, Hotels/Motels and Carpet Care.

Bio-Enzymatic Urine Digester

Applications	Problems	Dilution	Recommendations
Carpeting	Pet Odours	300mL : 1Litre	Saturate surface with mixed solution and brush in well. Allow area to dry. For older, more difficult odours, it may be necessary to repeat procedure and/or inject into carpet padding. May be used with pH neutral extractors and shampooers.
Washrooms	Urine odours and urine residuals	125mL : 1Litre	Mop diluted product around toilets and urinals. May be used full-strength as a spray or non-acid bowl cleaner.
Hard Surfaces	All odours	60mL : 1Litre	For use on all water-safe surfaces including; tile, grout, wood, vinyl, concrete, porcelain, etc.
Plumbing	Solids and odours	500mL : 1Litre	Pour 50mL of mixed solution into drain twice a week. Treat drains when water flow is at lowest point.
Grease Traps	Solids and odours	Straight	Pour 1 litre into trap for initial treatment. Thereafter, treat trap with 50mL. per day.
Septic Tanks	Solids and odours	Straight	Use 1Litre for initial treatment. Thereafter, treat with 50mL per week by flushing down toilet.

Product Code	Fragrance	Size
32-ZRC	Red Clover Tea Fragrance	.946L
128-ZRC	Red Clover Tea Fragrance	3.78L
32-ZCM	Cucumber Melon Fragrance	.946L
128-ZCM	Cucumber Melon Fragrance	3.78L
32-ZSL	Soft Linen Fragrance	.946L
128-ZSL	Soft Linen Fragrance	3.78L
32-ZTM	Tango Mango Fragrance	.946L
128-ZTM	Tango Mango Fragrance	3.78L

The multi-purpose formulation is efficient in breaking down and digesting organic waste which eliminates the source of many organic odours. Digester is available in; Red Clover Tea, Cucumber Melon, Soft Linen and Tango Mango and in two different size bottles .946mL and 3.78L. Digester is recommended for multiple applications, some of these include; Urine build-up, in washrooms, vomit, feces, stains, carpeting and all porous surfaces.

Nilozyme Trap And Drain Treatment

Applications	Problems	Dilution	Recommendations
Kitchen, Laundry, Washroom Drains	Solids and odours	Straight	Pour or inject 50mL to 200mL of Nilozyme into drain twice weekly.
Grease Traps	Solids and odours	Straight	Pour or inject 500mL of Nilozyme daily for large volume restaurants (fast food). Use 200mL daily for small/medium volume.
Septic Tanks	Solids and odours	Straight	For initial treatment, pour or inject 1Litre of Nilozyme for each 2000Litre capacity. Thereafter, add 500mL for each 2000Litre capacity once a week.
Lagoons	Solids and odours	Straight	Add 20Litres of Nilozyme per acre surface for initial treatment. Thereafter, use 7Litres per acre surface once a week
Garbage Chutes	All odours	250mL : 1Litre	Mix 50mL Nilozyme with 500mL of water. Pour, inject or spray into chutes or dumpsters daily.

Product Code	Fragrance	Size
32-ZNM	Original Fragrance	.946L
128-ZNM	Original Fragrance	3.78L

A trap and drain treatment that will reduce maintenance of grease traps, septic systems and open clogged drains. The multi-strain bacterial formulation is non-corrosive, non-toxic and will liquefy and digest complete proteins, cellulose and starch, yet resilient to bleach, disinfectants and many other cleaning chemicals.

Available in Original Fragrance

Recommended Applications:

Grease traps, pipelines, septic tanks, strong odours, slow drains, grease build-up and mineral deposits

Usage Directions:

Pour or inject Nilozyme into plumbing, grease traps and septic tanks to break down and digest solids and eliminate odours. Nilozyme also effectively treats solids and odours in lagoons and garbage chutes. Nilozyme can withstand high temperatures, bleach, disinfectants, chlorine and many other cleaning chemicals. This product also contains a proprietary odour counteractant for immediate relief of odours.

ZymeCLING Multi-Purpose Bio Enzymatic Gel

ZymeCLING is made to cling to the inside of drains and pipes so that it may continue working around the clock. It is fast acting and extremely effective at breaking down and digesting organic material (proteins, starches and sugars) from hard to reach drains and areas where drain flies breed. It helps eliminate odours from drains and improve flow in slow drains. It is safe for all types of plumbing and is non-pathogenic and non-caustic. It comes with easy to use pop top lid for pouring.

Fragrances include: Original

Recommended Applications: Kitchen and Bars, Drain Maintenance, Garbage Disposals, Urinals.

Applications	Problems	Dilution	Recommendations
Kitchen and Bar	Drain fly treatment	Straight	Add 60-120 ml to each drain. Apply around the edge of drain, attempting to coat sides of drain, twice a week
Drain Maintenance	Solids and odours	Straight	Add 60-120 ml to each drain. Apply around the edge of drain, attempting to coat sides of drain, twice a week
Garbage Disposals	Solids and odours	Straight	Add 60-120 ml to each drain. Apply around the edge of drain, attempting to coat sides of drain, twice a week
Urinals and Commodes	Urine odours and residuals	Straight	Squirt 60-120ml around inside of the Urinal and commode after cleaning.

Product Code	Fragrance	Size
32ZYMGE	Original Fragrance	.946L

*Note: before using, food products and packaging materials must be removed from the room or carefully protected. After using, surfaces must be rinsed with potable water source in a sufficient manner to prevent food contamination and/or inspection interference. This product must be used with proper ventilation, ensuring all vapours or odours associated with this product are dissipated before food products or packaging materials are re-exposed in the area.

ULTRA Air Passive Room Freshener

An economical, environmentally friendly option to complete your odour control program. Our Ultra Air Room Freshener, offers an alternative to the traditional aerosol refills and dispensers. This system combines perfectly with our Nilodor Ultra Air Range.

Nilogel Absorbents

Applications	Problems	Recommendations
Automobiles	Sickness and messy spills	Sprinkle to absorb and congeal. Eliminates malodour and mess.
Airplane, Boats	Motion sickness and spills	Sprinkle on motion sickness accidents and messy spills for quick removal and deodorisation. Great for cruise ships.
Public Transport	Sickness, accidents and odour	Sprinkle on spills, vomit, etc. to deodorise and absorb.
Amusement Parks	Sickness and accidents	Save time on clean-up by sprinkling Nilogel on accident. Deodorises and absorbs.
Aged Care and Hospitals	Sickness	Deodorises and absorbs vomits, urine etc. for quick removal.
Day Care Centres	Sickness and accidents	Sprinkle to deodorise and absorb vomit and urine etc.

Product Code	Fragrance	Size
8-NLC	Original Fragrance	227g

Nilogel is designed to absorb, gel and deodorise water-soluble spills such as vomit and urine in one easy step. Absorbing over 100 times its own weight this non-toxic, biodegradable gel is ideal in Healthcare, Hospitality, Public Services, Schools, Hotels and Motels.

Nilofresh Rug And Room Deodoriser

Applications	Problems	Recommendations
Automobiles	Pet, smoke and other odours	Sprinkle on carpet prior to vacuuming to eliminate pet, smoke and other malodours.
Carpet	Pet, smoke, mustiness and other odours	Sprinkle on rugs and carpet prior to vacuuming.
Rubbish Bins	Garbage odours	Sprinkle in rubbish bins to eliminate garbage odours.
Public Transport	Smoke, sickness and musty odours	Sprinkle on any carpeted area to maintain a fresh, clean smelling environment.
Rooms	Room malodour	Use on carpet, Nilofresh will eliminate any odour problem encountered.

Product Code	Fragrance	Size
12-NFCM	Nilofresh Cucumber Melon Fragrance	340g
12-NFRC	Nilofresh Red Clover Tea Fragrance	340g

A powdered rug and room deodoriser that does not contain abrasives such as baking soda. Made from ground corncob, which is non-abrasive and slow to absorb moisture from the air. It is better for carpets, will not damage vacuums and is easy to remove. Simply sprinkle over carpet for extended results.

Fragrances Include:

Cucumber Melon and Red Clover Tea

Recommended Applications:

Hospitals, Nursing Homes, Offices, Restaurants, Schools, Accommodation and Carpet Care

Heavy Duty Bin Wash

Applications	Problems	Directions	Recommendations
Dumpsters/ Compactors	Garbage odour, Garbage residue	Dilute 100mL. per 4 Litres of water	Spray or pressure wash on walls and inside container
Loading Docks Floors	Obnoxious, lingering odours, Garbage residue	Dilute 100mL. per 4 Litres of water	Spray or pressure wash over problem areas. Allow 5-10 minutes dwell time. Agitate with brush if needed
Trash Chutes	Obnoxious, lingering odours	Dilute 150mL. per 4 Litres of water	Pour or spray into top floor of trash chute and allow to coat walls

Product Code	Fragrance	Size
32-DMP	Heavy Duty Bin Wash RTU Trigger	.946L
128-DMP	Heavy Duty Bin Wash	3.78L

Helps reduce slipping and deters flies and insects. Non-toxic and biodegradable formula makes it safe and environmentally friendly. Concentrated to neutralise severe malodours. Available in Original Fragrance.

Recommended Applications:

Dump Bins, Compactors, Loading Docks, Floors, Garbage Bins

SANITARY BIO BINS

• TERRACYCLIC

THE TERRACYCLIC RANGE

FEATURES & BENEFITS

- ✓ **Simple Design** – Easy to install & Easy to refill.
- ✓ **Minimal contact** - Sealed bag with modesty flap means waste is never to be seen again, reducing the risk to harmful bacteria for users and cleaning staff.
- ✓ **Environmentally Safe** – Non-toxic, biodegradable, odourised plastics, breaks down in 1 – 5 years.
- ✓ **Small Dispenser Footprint** – The Cylinders are wall-mountable or freestanding and will fit into almost every washroom.

EASY AS 1, 2, 3

1. Insert a new cartridge into Cylinder Base
2. Remove the cartridge when full
3. Place the cartridge in any general rubbish receptable

SIMPLE: The Bio Bin is a wall-mounted or free standing cylindrical unit that is ideal for tight spaces. The self-deodorising cartridges seal in sanitary waste and are quick and easy to replace. It removes the need for any complicated cleaning and requires minimal storage space.

GREEN: The Bio Bin cartridge consists of a disposable cap, modesty flap and liner that are completely non-toxic and degradable. Because of the innovative design, environmental impact and degradability, the TerraCyclic Bio Bin has been awarded a Carbon Footprint Accreditation.

SAFE: The design of the Bio Bin cartridges contains all waste products so that users and cleaning staff have no contact with unsanitary waste. And without the need for an external cleaning service, maintenance is easily monitored and cartridges are refilled before any mess can occur.

The feminine hygiene disposal market is primarily based on rental services and cleaning maintenance. Most companies in this market only provide a sanitary disposal service that requires an incredible amount of energy consumption with every service due to the servicer's travel, water waste in cleaning out sanitary bins and the chemicals used in the cleaning process.

TerraCyclic removes this excessive use of energy in its progressive system that eliminates the need for an external business. Each refill cartridge is degradable and completely self-contained, meaning that once an item has been deposited, there is no chance of it coming into contact with another person.

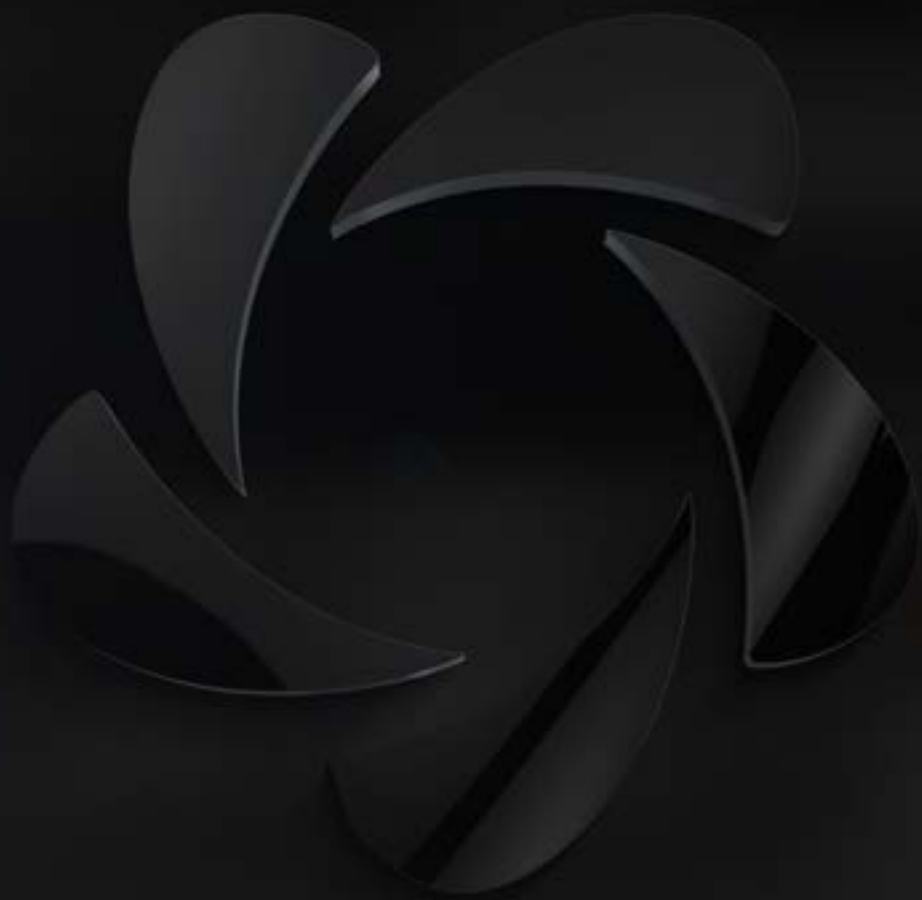

The Bio Bin is perfect for the smallest spaces as well as the busiest sites.

The Bio Bin is ideal for:

- Offices, showrooms, healthcare sites, education amenities
- Remote locations
- Hotels and motels
- Food outlets, cafes and restaurants
- Theme parks, nature parks and camping grounds
- Public washrooms
- High security areas
- Environmentally sensitive locations

The TerraCyclic Bio Bin system is an innovative, environmentally friendly and economic system. Our Green Washrooms and Nilodor Odour Control programs compliment the TerraCyclic Bio Bin system, providing a complete Washroom package for your facilities.
